

Captains Report 2021

I have decided to combine my two year Captain's report - this is due to nothing happening at all in 2020.

So it was great to get the ball rolling again at the spectacular and immaculate Goring & Streatley Golf club.

Not sure I have ever played anywhere with faster greens and where they must cut everything with a pair of scissors, as the course was just immaculate. Can't wait to return there next year !!!!

We managed to find another hidden gem at our next meeting at West Kent a really great course plus a few Spitfires honouring us with a fly past, we must return there.

Then of course it came to our long-awaited Captain's tour in West Sussex

Some great moments not paying any attention to the Starter about the 2nd hole on the spectacular Downs course at Goodwood.

Our team all deposited our balls into an unplayable position unless we roped ourselves to a tree to abseil down the bracken cliff.

The conversation at the bar when one of our party said "Do you remember where we were when whats-his name said "no just give us a clue !!!!"

On to Cowdray Park to the wonderful sight of Peter Jones running up and down the fairways just to warm up.

A lesson learnt for those of us having a cup of tea in our buggies, as Peter's endeavours ensured him a great victory with this year's Captains Salver.

Our last venue was at my home club of Slinfold Park which came up with the best condition it had been in all year for our Texas Scramble - I think local knowledge helped the winning team !!!

I think our base at the Spread Eagle turned out to be perfect with a really fun ambience for our evening dinners.

As we are inundated with nominations for next year's Captain!!!! ??? I have taken the initiative and with Richard booked our venues for next year and so looking forward to seeing you all again.

I will forward the Captains Tour details soon when we decide where to visit.

May I wish you all a safe winter - see you next year

Chris
